68.00	5.30
69.00	5.40
70.00	5.50
71.00	5.60

The energy surcharge is calculated from a cost price for fuel oil EL of 15.00 EUR/100 liters.

Price setting:

The energy surcharge is calculated on the last working day of the month for the following month.

For this purpose, a quantity of 32.000 liters of fuel oil (equivalent to a full tanker truck) is requested on the internet at

www.oelbestellung.de with delivery reference to our plant in 04932 Röderland / Haida. The resulting net price leads to the above-mentioned surcharges per ton of dried silica sand and -gravel.

All previous price lists are rendered invalid with the issue of this one.
